PURPOSE

*JJR and SmithGroup presented the master plan process, a brief review of site analysis and alternatives, and the draft master plan of the Main Campus. Stormwater strategies and phasing were introduced at this session. Questions and comments were taken throughout the presentation.*

MEETING NOTES

- Consider pedestrian issues when crossing Cotanche Street to the proposed Academic A building.
- A campus visitor center could be an opportunity on off-campus outskirts. However, it was noted that there is visitor traffic coming from many different directions, so this may be difficult.
- The Christenbury Gym building is a significant building that should be preserved, not demoed.
- Campus wayfinding is an issue on campus
- The Greenville MPO has a new bike and pedestrian plan that should be reviewed by the master planners.
- The Jenkins building should be considered for an architectural facelift.

If this report does not agree with your records or understanding of this meeting, or if there are any questions, please advise the writer immediately in writing; otherwise, we will assume the comments to be correct.
